

VPropTrader Instant Account Terms and Conditions

These Terms and Conditions govern the use of VPropTrader's Instant Account product. By purchasing or using an Instant Account, you agree to the following rules and policies:

1. Discipline and Consistency

1.1 It's All About Discipline and Consistency.

No need to rush—you don't build a life in a day. There is plenty of time to trade and grow steadily. Dynamic and consistent trading is the key to long-term success.

2. Trading Behaviour and Rules

2.1 We offer an Instant Account that gives you direct access to become a Prop Trader. In the event of any rule violation listed in this section, all open positions will be closed, the account will be terminated, and all rights to any rewards will be forfeited.

2.2 Maximum Daily Loss Limit (3%)

Your daily loss must not exceed 3% of the starting balance. This includes both closed trades and current floating losses. The calculation is:

Current Daily Loss = Result of closed positions for the day + Result of open positions

2.3 Maximum Trailing Loss Limit (5%)

Your account equity must never fall below 95% of the initial balance. This limit applies at all times, including commissions and swaps. Falling below this level results in automatic disqualification.

2.4 Weekend Holding and News Trading Restrictions

On Instant accounts, you are not allowed to trade during high-impact news. Trades must not be opened or held 10 minutes before and after scheduled high-impact news (total 20-minute window) for affected currencies. Source: FXStreet news calendar.

Holding of trades overnight is allowed. However, trades cannot be held over the weekends.

2.5 Trading Strategy Limitations

Trade however you like within reason. However, the following are strictly prohibited:

- Gap trading
- High-frequency trading
- Server spamming
- Latency arbitrage
- Hedging and arbitrage strategies
- Tick scalping
- Copy trading
- Trade management by third-party services

Use of third-party EAs is allowed only for trade or risk management. Any other use will result in denial of rewards and account termination.

2.6 Consistency Score Requirement (15%)

Your most profitable day must not exceed 15% of your total profit. If you exceed this limit, you may continue trading until your consistency score is met.

2.7 Maximum Risk Limit Per Trade (1%)

At no point should your floating loss exceed 1% of your account size. Breaching this rule will result in account termination.

2.8 Minimum 7 Profitable Days Per 30-Day Cycle

Each 30-day period (starting from your first trade) must contain at least 7 profitable days, with each of those days achieving a minimum of 0.25% profit. If this condition is not met, your account will be considered in violation.

2.8 Account Leverage

Instrument	Leverage
Forex/Gold	1:30
CFD/Indices	1:10
Cryptocurrency	1:1

3. Account Credentials

3.1 You will receive login credentials immediately after purchasing the evaluation. Do not change these credentials. Doing so will result in account suspension.

3.2 Traders must trade independently. Use of signal providers, trade copiers, or management services is prohibited. We monitor all accounts closely and reserve the right to suspend any account for violations.

4. Rewards

4.1 Bi-Weekly Payouts with 95% Profit Split

You can request a reward payout 14 days after placing your first trade, provided all conditions below are met:

- 4.1.1 You have met the **15% consistency score** (see rule 2.6)
- 4.1.2 The **first 3% profit** remains in the account as a **safety cushion**
- 4.1.3 Your **biggest loss does not exceed your biggest win**. If it does, you must continue trading until this is corrected.

5. Refund Policy

5.1 All evaluation fees are **non-refundable**.

6. IP Address Region Consistency

To maintain the integrity of the evaluation process and ensure account security, the region of your IP address used to:

- Purchase the evaluation
- Log into the V Prop Trader dashboard
- Access your trading account (during both the Evaluation Phase and the Funded Account)

must remain reasonably consistent.

If our Risk Team detects a sudden or suspicious change in your IP address region, we may reach out for verification and request supporting documentation.

Using a VPS or VPN for Trading

You may use a VPS or VPN throughout your challenge.

However, if our Risk Team identifies a change in your IP region, we may request verification. Acceptable proof may include:

- Proof of ownership for the VPS or VPN, such as an invoice with your name
- Use of a static IP address, which we can whitelist to avoid unnecessary disruption

Trading While Traveling

You are allowed to travel and trade from anywhere using your V Prop Trader account. While using the same IP address is not mandatory, any change in IP location must follow a consistent and realistic pattern.

If a sudden or unrealistic change in your IP activity is detected, our team may request verification. Acceptable proof may include:

- A boarding pass or plane ticket showing your travel details
- A passport stamp confirming entry into the new region
- A short live video demonstrating your presence at the new location

This verification process is in place to protect your account and ensure access is restricted to authorized individuals only.

7. Inactivity Policy

An account will be deemed expired and deactivated if no trades are executed for 30 consecutive days. To maintain active status, traders must log in and place at least one trade within every 30-day period.

Inactive accounts (no trades for 30 days) consume resources and may impact platform performance for active traders. Maintaining activity ensures compliance and helps us optimize resources for a smooth trading environment.
